# Project Information

## MINI PROJECT

1. I have done a hardware project during my DSD (Digital System Design) course using Arduino uno which was about count the number of people came and go of a shopping mall or any organization.

2. During my Database course(3$^{rd}$ semester) I have done a web design project using basic HTML,CSS and JavaScript on Local host (Xampp).

## PROJECT

I have successfully done my final year group Project. My final year project was web based named **Online Notification System**. It was about managing student personal information and course related information and send Email and SMS to student or their parents. During this time my web development skills improved most.
